

I listen to k-love daily. It has changed my life for the better. When my husband and I received our adopted daughter two years ago, all she listened to was music with negative messages and sexual content. Now she only listens to k-love which has given her a more positive outlook on life. It has also inspired her to become a singer. K-love is changing this world and making it for the better. I feel that K-love is an irreplaceable and invaluable resource for my family and my community.

Thank you  
Tasha Hines
